Civic Address: \_\_\_\_\_

Legal Description: Lot:\_\_\_\_\_ Block: \_\_\_\_\_ Plan: \_\_\_\_\_

I hereby make application for a permit to connect to the municipal sewer and water service connection lines at the curb stop of the street to which the herein described property adjoins.

I agree to construct all works in accordance with the Plans and Specifications provided at the time of approval, and to provide adequate notice to the Town of La Ronge to facilitate inspection of the works before backfill.

I hereby authorize the Town of La Ronge by its servants, agents, or workmen to enter upon the property described above for the purpose of operating, maintaining, inspecting, altering, removing, replacing, reconstruction and/or repairing the above described sewer and/or water service connection.

Whereas the above described property was sold without consideration of the expense incurred by the Town of La Ronge to install water services to the area, I hereby remit a non-refundable sum of one thousand, five hundred dollars (\$1,500.00) as assurance that the area dug up will be restored to its original condition in the prescribed time period.

I agree that I have no right of action against the Town of La Ronge at any time for flooding of my premises by water entering through the trench in which these connections are laid and I hereby waive any claims against the Town of La Ronge for damages which may be done by the contractor in making such connections, but reserve my right to claim for damages which may be done by said contractor against such contractor. I further agree to conform to all bylaws of the Town of La Ronge respecting sewers, waterworks, plumbing and building.

I hereby understand that it shall be necessary to heat the water connections during the cold weather. I also understand that the maintenance and repair of the connection lines from the property line to the building is my responsibility.

I hereby agree to have the attached Form "C" completed and submitted to the Town Office PRIOR to requesting to have the water turned on. The following information will be on Form "C":

- type and make of materials used
- length of connections
- connections entrance into building
- distances tying in property valve

The valve at the property line will be properly tied into nearby permanent fixtures (house corners, telephone or power poles, hydrants, etc.) to a measurement accuracy of 0.1 meters (4 inches).

**I HEREBY AGREE TO ARRANGE FOR THE WATER TO BE TURNED ON BY THE TOWN FOREMAN ONLY OR A REPRESENTATIVE DELEGATED BY THE TOWN FOREMAN.**
